EXTRACORPOREAL SHOCK WAVE THERAPY FOR ED

About ASW

SWT is a proven protocol for men that improves sexual performance, treats ED, and keeps the penis healthy. SWT works by focusing high energy sound waves to open blood vessels in the penis stimulate the growth of new blood vessels, and eliminate micro-plaque. This results in increased blood flow and stronger, more sustainable erections.

Benefits

- Increased function
- More intense orgasms
- Better intimacy
- Increased confidence
- Enhanced sex life
